

A POOR RECORD.  
Kansas City Journal.—Mr. Van Allen's record for patriotism is very poor indeed. He never voted in his life till last year, and then voted for Grover Cleveland.

RIGHT.  
Washington Post.—The Mugwumps make very lively war on Tammany in the off years, but in the Presidential campaigns they pitch in and help the tiger to fortify itself for emergencies like the present.

"SPEECH" DAYS RECALLED.  
New York World.—Some thirty years ago there were so-called statesmen who attempted under the rules, as they interpreted them, to break up the Union of the states for the sake of slavery. They did not succeed. The men who now for the sake of silver are attempting to thwart the constitutional rules of the majority by abuse of the rules of parliamentary government, will succeed no better. Their cause is equally hostile to the highest welfare of the Republic.

THE CRIME OF FILIBUSTERING.  
Senator Sherman.—There is no money to pay cotton and corn and wheat for foreign consumption. Break down this barrier now maintained by the Senate of the United States; break up this filibustering and obstruction to the will of the majority; give the Senate force and power to pass this bill, and pass it; and in ten days the skies will lighten, business will resume its ordinary course, and "all the clouds which lowered upon our house shall be in the deep bosom of the ocean buried."

THE SELESSLESS FLKA FOR "MORE MONEY."  
Philadelphia Record.—In answer to the cry for more money, over one hundred million dollars in new currency has been suddenly checked into the circulation. Instead of answering the expectation of those who believe that more money is the need of the hour, however, money is gathering, unused and unavailable, in the banks and in the hands of lenders. It may be that "money makes the mare go," but money loses its use and the mare stands idle when business halts, and no one wishes to keep the mare going when she carries nothing, carries nothing and fetches nothing.

WHERE SENATOR SHERMAN STANDS.  
Senator Sherman.—Why do we sit here without a single vote upon any question? If we will try it to-morrow, after all the long debate which has been had, and if we dispose of the question as we think best for the people of the United States, we will gladden the hearts of millions of laboring men who are now being deprived of employment. We will relieve the business cares of thousands of men whose whole fortunes are embarked in trade; we will relieve the farmer and facilitate the transportation of his products to foreign countries, which is now clogged by the want of money.

A SCHOLAR STOPS TO DRIVE.  
Kansas City Times.—Senator Morgan of Alabama has obtained deserved reputation as a profound lawyer, but his statement that the common belief of his countrymen in a majority's right to rule is a political heresy has been overruled by a higher court—the people. It shows plainly how weak is the case of the obstructionists, by which found fault with and attainments of Mr. Morgan put forth such a drive as that. The majority should take care of itself, he argues, therefore the minority should be given powers, never dreamed of in the Constitution, by which found fault with and attainments of Mr. Morgan put forth such a drive as that. The majority should take care of itself, he argues, therefore the minority should be given powers, never dreamed of in the Constitution, by which found fault with and attainments of Mr. Morgan put forth such a drive as that.

A CHIEF, THIS, INDEED.  
Washington Post.—Affairs in the Senate seemed to have reached a point in which it is incumbent on the Democratic majority to bring matters to a close and do something to settle the pending question. It reminds a prominent Democratic statesman, said to be Senator Vest of Missouri, of an incident of prairie life.

A NEED COULD HAVE LIVED FOR FORTY YEARS IN PEACE AND QUIET, BUT HE WAS HOMELY, AND DOMESTIC, FOR THE MOST PART IN THE CRAMPED QUARTERS OF A PRAIRIE SCHOONER. The struggle for existence against the paucity of poverty had kept suppressed certain idiosyncrasies of individual temper, which found full vent when, having located on a fat and fertile quarter section, they had risen to the dignity of a loghouse. Six months of warmth and high feeding brought on a series of family quarrels, which culminated in a personal encounter over the alternative purchase of a feather bed and a cook stove. The old lady proceeded to larrup her lawful mate with a blucit beater, while he waded into her hair and laid with a hickory goose on the head of their argument. He alone hit the low cabin and buried them in the ruins. The old man dug himself feebly out of the wreck as his wife appeared across a dividing log.

"My Gawd, Maria," said he, "thine has reached a crisis. I didn't think I was gwine ter 'tar the house down. Let's compromise."

Lovell, who had been urged by his friends for Postmaster at that place, had declined to be an applicant, though he was a resident of the place, and would have been able to fill the position any position he would accept.

COLONEL ROBERT STONER of Paris, who was in the city Monday and yesterday, purchased, while there, eighty-three head of cattle from parties throughout the county. This makes about 150 head that have been bought by this county by cattle raisers. If there is a good crop of rabbits we must content ourselves with eating them this winter.

MR. and MRS. JAMES AUSTIN entertained quite a number of their young friends last evening at their home on Forest avenue. Dancing was indulged in and everyone present seemed to have enjoyed themselves. Those in attendance were unanimous in their praise of the kind treatment they received, and voted that Mr. and Mrs. Austin repeat the social at an early date.

W. M. TERRY, who has been in the drug business at Elkton, Ky., for the past twelve years, says: "Chamberlain's Cough Remedy gives more satisfaction than any other cough medicine I have ever sold. There is good reason for this. No other will cure a cold so quickly; no other is so certain a preventative and cure for cough; no other affords so much relief in cases of whooping cough. For sale by Power & Reynolds."

BARTHOLOMEW'S Equine Paradox exposed at the Grand Exposition of the Horse Show proved a wonderful one. The horses are all handsome and appear to understand any word said to them. Will appear at Washington Opera-house two nights and one matinee, October 27th and 28th. Prices 15, 25 and 35 cents. Matinee 25 cents.

It is intimated that the pension appropriation for the fiscal year ending June 30th, 1894, will reach the enormous sum of \$18,000,000. This is claimed by those who profess to know, will be the high water mark of the pension legislation, and that the fiscal year following the appropriation will begin to decrease. The death rate among the old soldiers is daily increasing and almost every day pensions are issued to soldiers who die before they receive official notice that their claims have been allowed and the pension attorney who has labored hard to secure the pension is thus cut out of his fee, for the role of the office is that no fee is to be paid if the soldier dies just when his claim is allowed.

A Good Household.

## DREW LOTS

To Earn Their Daily Bread by Hard Labor.

A Novel Scene at the Meeting of the Unemployed in Cincinnati.

Several Hundred Boys Prepared by the Relief Committee, and on Twenty-Five Cents Each, to Draw the "Word-Work" Drawing.

CINCINNATI, Oct. 25.—It was a strange scene that enacted Tuesday at Lincoln hall, when it was announced that positions for twenty-five people would be given out. Several hundred men were present eagerly anxious to secure one of the coveted situations, and the committee was in a quandary what to do. It was determined at last to award the work by lot. Several hundred slips were prepared, and on twenty-five of them was written the magic word, "Work." The drawing was a past and held above the heads of the crowd. The men were then formed into line and filed by the temporary jury, each taking a slip as he went past. The fortunate men who drew the slips gave expression to their satisfaction in a most pronounced way, and were the envy of their unlucky comrades. They were ordered to report to the board of park commissioners, who will set them to work in Burnet Woods park at once.

The assemblage was addressed by Rev. J. A. Lord, pastor of the Central Church. He said that the committee's registration reported an extraordinary number of widows needing support, and that they were being away in the thousands. The cost of the unemployment shows 4,000 in that condition. The donations for the day at No. 538 Virginia street, where the names of bread and forty pounds of meat.

Food Distributors in His Office.

WHEELING, W. Va., Oct. 25.—When Mrs. Mary Clancy went to clean the office of the city clerk, she found a chum of stuff on the floor near the door that Chief of Police McNichols recognized as dynamite. She was alarmed to learn that his suspicions were correct, and that there was a chance of blowing the top off the building. There is no explanation given how the dynamite got into the engineer's office. It is thought that the same man who threw a bomb through an open window at the office was looked up for the night. The finding of the explosive has caused a panic among the men who occupy the building.

A Brave Servant Girl.

NIAGARA FALLS, N. Y., Oct. 25.—Ex-Assemblyman Peter Porke was being escorted by his servant girl, who Monday night prevented his home being robbed. She discovered a man in the parlor, and promptly seized him, and then, through an open window, she looked up for the night. The finding of the explosive has caused a panic among the men who occupy the building.

## FIGHT ENDED.

The Silverites Will Filibuster No Longer in the Senate.

Unconditional Repeal Will Soon Be Allowed to Go to a Vote.

In a Caucus Southern Silverites Came to the Conclusion That They Have Had Enough of the Fight—Sensitizers From Silver States Also Weakened.

WASHINGTON, Oct. 25.—The silver fight is ended. Tuesday settled the long and weary struggle. The southern democrats who were making the bitter contest aided by the republicans from the silver states, decided that they could not longer stand the strain and after a conference of an hour or more adjourned and announced plainly that they would not filibuster any longer, but allow unconditional repeal to come to a vote.

The silver republicans, who have been wavering for some days as to when to take this very step, came into line, too, and now it can be stated that unconditional repeal will be voted upon within a few days. The silver senators—Jones and Stewart, of Nevada—who are now speaking will be allowed to finish their speeches.

About 1 o'clock the southern senators came out of their conference with rather downcast faces and it was soon apparent that they had not accomplished much for filibustering in their caucus. In fact, it was given out that they had decided to weaken and that after a day or so longer they would withdraw all opposition and a vote would be allowed. This got out soon after the southern men came on the floor.

After the meeting of the southern senators became known Senator Harris sent to one of the republican senators and told him that the southern democrats had determined not to filibuster any longer and that they would allow unconditional repeal to be voted upon without objection. The acknowledgment from Harris was a surprise indeed and the news of the surrender spread like wildfire all over the capital. The decision of the democrats disheartened the silver republicans and for the first time, Tuesday, they saw the signs of surrender, too. The programme now is to let things drift along for a day or two and then fix an hour for the vote.

What made the silver democrats change their opinion so suddenly? It is the question now asked, and the answer is the attitude of the republicans. The republicans stood firm for unconditional repeal a day or so ago and the make-shift compromise of the man and his crowd would have been pushed and may have carried.

Then the change of position in the silver republicans came. They were growing tired of the struggle and gave notice last night that they would rather go to their constituents beaten outright than take home a make-shift compromise. This notice frightened the southern democrats, who found themselves left alone in the struggle.

They tried this morning to patch up another combination but the overtures were repulsed, and then came the fact that the republicans were ready with his amendment and altogether the fire-eating southerners, who boasted Tuesday morning that a very warm place would freeze over before they surrendered, quietly and meekly gave up the ghost when they found out all was over. The question as to when the vote will be reached has not been settled yet.

Senator Voorhees says: "A light is ahead; unconditional repeal will be voted upon, and that soon. Time will be given the senators who are now speaking to finish their speeches, and then the voting on the amendment and the bill will begin."

Senator Aldrich says: "The vote will be reached in forty-eight hours. The silver senators have not much more to talk about, and if they have, it will do on any other subject as well as on this."

Senator Dubois acknowledged the contest is over, and says: "There will be no further obstruction to a vote, but Senators Jones and Stewart, of Nevada, and Teller, of Colorado, will be allowed to finish their speeches. It may be a week or a month yet, but the vote will come."

Senator Murphy says he expects a vote at once. Faulkner is hopeful. While there has been no absolute change in the situation yet, the morning has been most productive of statements that a vote on unconditional repeal will be reached within a week.

Strength was given to the view that Senator Faulkner about noon when he left the senate chamber and talked with a number of newspaper correspondents on the situation. He gave it as his opinion that in less than five days a vote would be reached on unconditional repeal.

"There are forty-eight votes for it and it looks to me as if opposition would gracefully retire after a few more days of debate and the vote would be reached by unanimous consent." This statement naturally sent repeat speech booming, but the vote was made before absolute denials came from nearly all the silver senators in the form of counter statements that they had not yet given up the fight, and that unanimous consent could not be reached yet. Further than this the southern democrats, led by Teller, Cook and Harris, held a conference Tuesday afternoon to decide upon a programme to be followed hereafter.

When asked if he thought the fight would be passed Mr. Harris replied in his characteristic style: "Not until shell freezes over," but it is a fact that some of the republicans are weary of the struggle and are worn out physically with the test of endurance and those privately express an opinion that the fight against the repeal can not be kept up much longer.

HE COMMITTED SUICIDE!

The Cause and its Lesson.

Why did he commit suicide? Oh! for the same reason that thousands of others are on the verge of the same sin, or in immediate danger of insanity, paralysis, idiocy, or some other equally unfortunate result of any nervous affliction. He knew he was afflicted with a nervous disorder, but was careless, apparently indifferent to the outcome; or he may have lessened his chances for recovery by treating with physicians who had little or no knowledge of such affections, or by deluging himself with worthless, hazardous, diabolical, irritable, melancholy, filling memory, hot flashes, fainting, sleeplessness, nervous dyspepsia, sexual debility, epilepsy, etc. The name of similar consequences are likely to result to any one who has any of these advance symptoms of an awful end. Do not hesitate in getting rid of them by intelligent treatment. Dr. Franklin Miles, the celebrated specialist, has studied nervous diseases over 20 years, and has discovered the only reliable remedy for them. Thousands of voluntary testimonials prove the virtues of Dr. Miles' Restorative.

Albino Barker, of Clinton, N. Y., writes: "I was afflicted with extreme nervousness and I was in the verge of insanity. My hands trembled, my head ached, my memory failed, my sleeplessness, my melancholy, my filling memory, hot flashes, fainting, sleeplessness, nervous dyspepsia, sexual debility, epilepsy, etc. The name of similar consequences are likely to result to any one who has any of these advance symptoms of an awful end. ## IRON HALL RECEIVER

Settles Accounts, and a Large Sum Will Fall to Members.

PHILADELPHIA, Pa., Oct. 25.—George S. Graham, appointed receiver for Pennsylvania of the order of Iron Hall, August 30, 1902, filed his first account in court here. Apart from the securities on hand, the receiver has collected \$141,438, and disbursed for expenses \$10,411, leaving a cash balance of \$131,027.

Complete collections have been made from 105 branches. Five branches made return to Receiver Fallett at Indianapolis prior to the appointment of Receiver Graham. The balance of the return made to the cashier of the order at Indianapolis, and as they had left their reserve fund in the cashier's hands, there was nothing to collect from them here. Sixteen branches have not paid over anything to the receiver, and still in equity have been filed against them.

The work of Mr. Graham was complicated by the attempt of Receiver Fallett to force Pennsylvania branches to make payment to him. It is not possible to determine what rate of dividend will be paid until the exact membership of the order in this state is ascertained. In addition to the cash on hand and the unconverted securities, a dividend will be recovered from the Mutual Banking, Surety, Trust and Safe Deposit Co., the official depository of the order in this city, which failed immediately after the Iron Hall collapsed.

The fund will be distributed among members in good standing at the time of the appointment of the receiver, without regard to whether they have since joined any new order. Mr. Graham intends to combat any effort to secure a transfer of the funds in his possession to Indianapolis for distribution through the receiver there. No member of a branch failing to make return will be recognized by the court in the distribution, the receiver says.

MONEY STUDENTS.

Senators and Congressmen Reading in the Big Library.

WASHINGTON, Oct. 25.—Never to so great an extent as now has the library of congress been besieged by the legislature on political economy, particularly for works on finance. Everything is eagerly sought and read on both sides of the question. It should not be forgotten while the stress of senatorial debate is on this debate started in the house, and several speeches were made there equal to any senatorial remarks.

Librarian Spafford says there is no standard treatise on money. The basis and fundamental work is yet to be written. It must, he holds, be the summary of all financial history and literature and be written by a man not only of literary ability and high critical acumen, but with a thorough grasp of fundamental principles.

There are seventy-five members of congress who are converts to the single tax, but not more than six of them believe the time ripe for raising the issue and thrusting it into politics.

THE END.

Preparations Made by the Council of Administration to Close the Fair.

CINCINNATI, Oct. 25.—The council of administration has ordered Director of Amusement Millet to carry out the plans for the celebration next Saturday and Sunday. The final program for Columbus day. The closing day programme is expected to be the complement of the opening day exercises in several respects. One of the features will be a spectacular reproduction on a large scale of the landing of Columbus. This scene will be enacted on the lake, with the caravels anchored off shore. At sunset all the flags on all the buildings will be furled—the signal that the fair is closed, just as the flying of the flags was the signal on May 1 that the exposition was formally opened. The grounds and buildings will be kept open until midnight of October 29 and some informal exercises will be held the following morning.

Female Franchise in Michigan No Go. LANSING, Mich., Oct. 25.—The act of the last legislature permitting women to vote at municipal elections was declared unconstitutional by the supreme court Tuesday morning. The act of Philip M. Coffin for a mandamus requiring boards of registration to require and register the names of women as electors, was denied, while that of Edward H. Kennedy and Henry S. Potter, for a mandamus preventing such registration, was granted. This will prevent women taking part in the election November 7 next.

To Be Wedded at the Fair.

CHICAGO, Oct. 25.—The world's fair will not close after all without a demonstration by Cupid. There is to be a wedding in the Indiana state building at high noon on Wednesday. The state building has been trying to place for lovers all summer and many romantic friendships have doubtless been begun and cemented in the nooks and corners of the spacious structure. It has been reserved for Indiana, however, to bring matters to a climax with a genuine wedding. The contracting parties are from Lafayette, and their names are Frank Phillips and Gertrude Wilson.

Desperate Work of Toughs.

PARKERSBURG, W. Va., Oct. 25.—C. H. Devereaux, an oil well driller from Sistersville, came here and got drunk. Two toughs took him in town, knocked him down, and stole a gold watch and \$50 from him. Then they shoved him in front of a coming freight train, which cut his right hand off. Henry Uoodin, who took him to the hospital, has been arrested on suspicion.

A Train Ditched.

St. LOUIS, Oct. 25.—An Erie freight train reports the ditching of a passenger train on the Indiana & Illinois Southern railway at an early hour Tuesday morning in which thirteen passengers were injured.

Don Dickinson Receiver.

DETROIT, Mich., Oct. 25.—Judge Swan took, by consent of all parties concerned, the appointment of Don M. Dickinson as receiver of the Detroit, Bay City and Alpena Railroad.
